

Both PRES and PRHS are well represented and supported by the School Advisory Council, with 14 members meeting monthly throughout the school year. Reports are provided by teacher reps, administration, PRHS Student Council and community. Last year we created a sub group, the Dream Team, to explore funding opportunities through local, regional and provincial grants. We look forward to supporting many school-based student projects and initiatives through successful proposals for both the elementary school and the high school. Some of the agenda items throughout the year include: CSI—goals & action plans, report cards, student achievement—assessment, school maintenance and upgrades, staffing, course offerings at PRHS, school-community events and partnerships, student and school needs and many other interesting and pro-active topics.

The SAC welcomes all of our school-community to attend any of our monthly meetings and we invite you to submit agenda items two days in advance of a meeting. Individuals may request to speak to their item if the agenda is not already full for that meeting.

Many thanks to all members of the SAC as we begin another year of exciting growth and possibility at both PRES and PRHS.
